PROFILE

I am a software engineer with experience in programming, machine learning, and networks. I have acquired knowledge in various programming languages and developed expertise in implementing machine learning algorithms. Additionally, I possess skills in designing and configuring network infrastructure. Looking forward to applying my knowledge and expertise to learn and develop new skills and techniques.

PROJECTS

- Online Food Ordering System Software Diagrams "frontend"
- Hotel Desktop Application with java
- Brain Tumor Detection recognition with SVM
- Image Processing and Machine learning with ANN and SVM
- Researchgate WebApp with ASP.Net
- Store System with c#
- football website "frontend"
- 3D Game with Unity
- Search Directory with java
- Library management System with C++
- Ecommerce with JS
- Education system with Attendance by vue framework
- Education system with Attendance Django framewok
- Design project plan by microsoft project about Software app
- Unity 3D Game
- Animation academy videos

EDUCATION HISTORY

Helwan University

Computers and Artificial intelligence

Department: Computer science

Sep 2019 – June 2023

- Graduate with a 3.13 GPA with honor.

RELEVANT SKILLS

(OOP).
AJAX.
JSON.
GIT.
Data Structures.
Algorithms.
Design Patterns.
SQL.
REST API.
Docker & Kafka.
Linux.
Data Communications.
HTTP.
Networking.
AI.
ML(CNN,ANN,RNN,MVC,Istm).
Unity Hub.
Blender.

Backend:	Frontend
Frameworks:	Frameworks: •
• ASP.net	Vue Languages:
• Django	• Html/CSS
Languages:	• JS
• C/C++	• JQuery
• C#	• Bootstrap
• Node JS	
• Python	
• PHP	
• Java	

LANGUAGE & COURSES

Arabic –Native

English–fluent Level – 9 BUE

Germany –Basic Skills

PM –BUE

Internship in TMG
